By Leary & Co., Nos 4 and 5 Astor House, New York, Hatters, will introduce on Wednesday, the 21st inct., a new and elegant article of gentlemen's Black Fur Hats, at \$3,621 each, in explanation of which we submit the sol-

lowing remarks: Since the origin of our establishment, we have had in view, and have strictly adhered to three distinct purposes in our manufactures, viz : Economy in price, Improvement of quality and taste, and the perfecting a STANDARD OF FASHIONS FOR THE UNITED STATES, independent of the European, all of which have been successfully effected, resulting in a most important saving to the community at large, and an equally satisfactory remuneration to ourselves, consequent upon the extensive patronage

which we have reseived. Our improved FIVE DOLLAR HATS, so superior in material, elegance of style and perfect finish, that immediately upon their introduction, they became not only preeminent at home, but celebrated in London and Paris, and elicited the highest encomiums of the Press there, soon spperseded the \$10 Hats previously worn here by the first class of our citizens. This article, now fully established as the highest standard, is so extensively known and universally approved by the fashionable and genteel wearers and true economists, that we will not now allude further to its merits, except to announce that we have improved its beauty and value the present season beyond any that we have heretofore produced.

At the urgent solicitations of many of our customers, who were anxious to economise in the first cost, and yet desirous to avail themselves of the peculiar style and finish characteristic of our fabrics, we have for some time past made diligent efforts to accomplish their wishes, and consequently have just perfected the new article of Hats as announced above. They will be composed of superior materials, the workmanship will be of the first order, and although folly equal to Hats formerly retailed at \$6 and \$7, they will be sold at \$3,621 each, a price not only commensurate to the present pecuniary depression, and far less than their intrinsic worth, but infinitely cheaper, when the respective qualisies are compared, than any which have ever before been offered to the public.

Purchasers are assured, in advance, that these Hats will not incur the objection, viz: " dear at the price," currently argued against most low priced goods. LEARY & CO. Astor House, Sept. 15th, 1342. s19 6tis

IT Fall Style of Gentlemen's Hats .- BIRD, corner of Pine and Nassan-streets, has now ready for inspection and sale the Fall Standard Pattern for Gentlemen' Hats. September 1. s1 F,S,M&W* September 1.

Spencer, Hatter.

To the Gentlemen of New York: An advertisement, dated 15th inst., under the name of a house of standing in the hat trade, being evidently to us, (though covertly) aimed at the character and prosperity of our establishment, (as being the only one engaged in the sale of the finest quality of Nutria hats at a less price than \$5) demands from us a thorough review of its main positions, and a refutation of its unfair insinuations. The language of said advertisement is-Since the origin of our es. tablishment we have had in view, and have strictly adhered to, three distinct purposes in our manufacture, viz : Economy in price, improvement of quality and taste, and the perfecting a standard of Fashions for the United States, independent of the European. First-" Economy in price." A short reference to the

history of that concern will sufficiently shew the claim to be estirely unfounded. The first act of said House, was to raise the price of the muskrat sapped hat from \$4 to \$4,25, it having been sold at the first named price by the establishment from which the House now considered emanated. This fact is well known to ourselves and others who were engaged at the time as operatives on the identical article.

The next movement was subsequent to the substitution the autria fur, in place of the muskrat, and upon a slight advance in the cest of the former article, (equal possibly to 26 cents per hat,) when said concers immediately raised the price of their article 75 cents per hat, or to \$5. At which high price, yielding large profit, the article has been main tained by them.

SECOND-" Improvement of quality and taste." We gran the truth of this position, but in so doing claim for ourselves and a few other makers, equal zeal and success.

THIRD-" Standard of Fashions for the United States, inependent of European." Upon this we remark that, whatever may have been the design of the establishment, its practice has not tended to such a result. We remind genthemen of the fact that the fashion of the Spring of '41 was the model of a hat worn by a distinguished fashionable foreigner, and was by this same house named the D'Orsay style. Again, the fashion of the present season, adopted by the same establishment, our own, and others, is but a slight modification of the prevailing Paris style. And it is well known that our city fashions of late years, as in our earlier history, have been in most cases but slight variations from European styles.

The next paragraph in the article requires a slight notice. We cannot pass it, without remarking that the \$5 Hat spoken of is not, never was, and cannot be made equal in value to the former, \$8 to \$10 beaver Hat, as has been too often stated by interested persons. It, however, deserves the popularity which it possesses. We call the attention of "fashionable and genteel wearers, and true economists," to the fact, that this \$5 article is produced by us, of the finest sible quarity, and in the most elegant style, at \$4 25.

We now notice the closing paragraph of the article. After announcing a new article of Hat, at a low price, the following language is used in relation to it: "It is infinitely chesper when the respective qualities are compared, than any which have ever been offered to the public." This we most unqualifiedly affirm to be impossible. We have for the past two years been engaged in selling Hats of the first quality and styles, at lower prices than any other house, This we have thus far done, and we now positively affirm that we are, by our peculiarly economical system of business. enabled to affer Gentlemen's Huts at less prices than with the setravagant system of business pursued by the house in quesnon, IT POSSIBLY CAN DO.

In conclusion we announce, that we shall as soon as arrangements can be effected, offer to the public, the kind of hat in question, of as fine quality, and in as elegant style, yet at a very decided reduction from the price at which it has been announced. Sept. 19th.

Orlando Fish, Fashionable Hatter, 187 Broadway, would inform the gentlemen of New York that his Fall and Winter style of Hats is now ready for their inspection and critical judgement. Claiming the distinction of having been the first to project and abide by a strictly AMERICAN style of Hats, instead of servilely copying the Pashions of Europe, which are often ausuited to our climate and manners, he rejoices to perceive that others have seen fit to follow his lead, and that now the following of European Fashions in Hats is almost entirely abandoned by the leading manufacturers.

He offers a Winter style of Gentlemen's Nutria Hats at \$8 50, and warrants them equal in material, finish, fa-hiss and durability to any Hat sold as low as \$4 in the city. But he wishes it distinctly understood that his best Hats are not sold at this price, but at \$4 50. These he recommends as equal to any hat sold in New-York at \$5 or under, and challenges for them a comparison with any other. Gentlemen visiting our city are respectfully invited to

call and examine his new stock of Winter hats and judge of their quality. He is couffent that, whether the cheapest or the best riat is desired, the inquirer will here be satisfied.

That the Moleskin Silk Hat possesses the very elements studiously aimed at in the production of a perfect article, it needs only to be stated that the foundation or body is manufactured from the finest description of stock, and the bulk of the sales have been at the former price. buyers of Alabama and New-Orleans, but there is no aniwation. Central is 29 a 30. It is improving at home. Mr. Thomas Hale has been appointed Receiver of the Merchants' Marine Insurance Company of this city, and 50 per cent, of the capital will be paid to the stockholders on Monday next. It is confidently anticipated that the whole capital will be repaid.

In relation to the case of the Mechanics' Banking Association vs. Willoughby, reported in our paper of Wednesday, we understand the following are the facts:

"The facts, as admitted by both parties are as follows: Mr. Willoughby, on the 2d of November, 1858, gave his bond to the Bank for \$60,000, with but 6 per cent, interest, having received for the same \$50,000 in State of Maine stock at par, and \$10,000 in the stocks of the Bank, for which be subscribed as an associate. This Maine stock was obtained from Parker & Co. by the Bank for Willoughby, and for which Parker & Co. received from the Bank the same amount of their stock Mr. W. immediately founded Bank of his own on the basis of this Maine stock, and deposited it with the Comptroller. The defence now set up s, that the stock was not worth what he gave for it, or, in other words, he sets up the plea of usury."

There is an improved demand for Treasury Notes, which are not plenty. Sales to considerable extent have been made at 1 a 1 premium. They are wanted for investment, and are taken mostly by the Banks.

There was an error in the statement of the assets of the Greenwich Bank, as copied into our paper from Thomdson's Reporter, caused by a mistake in the addition. The total assets, instead of \$245,381, as set down, amout to \$265. 351, and the stock is consequently worth 70 instead of 60 per cent, on its par value.

As we stated some days since, as the contemplated move-ment, Mr. George Law was last evening unanimously elected President of the Harlem Railroad, in conformity to the wishes of the stockholders, and from indications in the Board of Directors of the New-York and Albany Railroad Company, a corresponding change will probably soon take place in the organization of its administration.

Thompson's Bank Note Reporter gives an extract from letter from the Comptroller's Office, stating that the notes of the Bank of Lyons will be received in commutation of the payments of the Bank to the Safety Fund. On the other hand, the Reporter says Mr. Washburn, a broker in Albany, under date September 21st, writes: " The Comptroller does not and will not receive the notes of the Bank of Lyons in payment to the Safety Fund.

Speaking of the Lafayette Bank, Thompson says: Speaking of the Lafayette Bank, Thompson says:

"This institution, we believe, is the only one in the State of New-York placed under an injuction and wound up by receivers, which has ever paid all its inabilities to the public. It has been in the hands of a receiver only five months; he is now paying, or has already paid, the entire sum of its indebtedness, and there still remains on hand of its property a very considerable amount to be distributed among the stockholders. This Bank is an honerable exception to the class of winding up institutions to which it belongs, fer in no instance within our knowledge has any Bank closed by an injunction of the Court of Chancery heretofore been able to pay its debts."

The Philadelphia Inquirer says: "We notice with pleasure cheering indications of the revival of business, as well along Market-street and other principal thoroughfares as

from the Bunalo Commmercial:

"The closing of the Bank of Lyons, one of the Safety Fund institutions, by the Chanceller, has started an inquiry as to the stability of other Western Banks, whose principal borrowers are persons known to be extensively engaged in midling; but as far as we have been able to gather information, all appear to be safe, and their line of discounts within reasonable bounds. Indeed, the millers at this time do not open raily require heavy loans—many of the establishments reasonable bounds. Indeed, the millers at this time do not generally require heavy loans—many of the establishments are only partly employed, and turn out but one third of the quantity of Flour usualat this season of the year. This we know to be the case in our own vicinity and at Lockport, at a from the general tone of our Eastern Exchanges along the line of the Canal, we infer that the same mactivity prevails even as far as the Hudson. Such being the case, we are certain there is no cause for distrust as to the general stability of the interior Banks. TEWS FROM RHODE-ISLAND .-IMPORTANT TESTIMONY.—If further proof is required to establish the fact of the inestimable value of Dr. Starkweather's Hepatic Elixir, the following communicaon from the Hop, Samuel W. King, Governor of the State of Rhode-Island, contains adequate testimony to substantiate it beyond dispute, and must put entirely at rest the idea that this potentremedy is classed with the many tieless and dangerous nostrums which are palmed upon the

public merely for the sake of gain.

Please acad the following statements communicated to
the undersigned by His Excellency, under date of
JOHNSTON, Jan. 29, 1842-

Mr. CHARLES DYER, Jr.: My Dear Sir-Your communication of yesterday, asking my opinion of Dr. Starkweather's Hepatic Elixir, has been my opinion of Dr. Starkweather's Hep-tic Elixir, has been received this morning. In reply, I will inform you that my confidence in patent medicines generally is not very fattering. I have had too much reason to believe that unprincipled men will often paim upon their fellow-citizens their useless, if not dangerous nostrums for the sake of gain, the results of the sake of gain. the use of which takes up that important and critical period of time without producing any good effect, when otherwise perhapt proper remedies would have been used, and much suffering and distress prevented. For that reason I have not used them, feeling myself and family to be much safe under the direction of my family physicians; but having been afflicted for the last sixyears with difficulties in the side and thest, uncomfortable and often distressing, painful, and somewhat alarming, and from which I could get out tenbry relief, I very fortunately noticed your advertisement of

the medicine in question.

I had been a school-boy with Dr. Starkweather, and had with him a long and intimate acquaintasce when we were young men, and from my knowledge of him I thought him young men, and from my anowered of in the case incapable of practising deception on any person; this fact induced me to try Dr. Starkweather's Hepatic Elixir, and by its use I now believe myself entirely cured.

I need not, therefore, say to you that I consider it of great volue. I certainly think its discovery of great public im-

The first bottle I took gave me much relief, which regularly progressed until I bod taken six bottles, when I discontinued it, having, thank God, no further use for it at present.

of the liver, and that every chronic ar ingering liness arises from some defectithers. Chronic Hepatitis the most frequent form of the disease in this country, is slow in its progressive strength. The organ of attack will be tor years suffering under its undermining influence, and yet no real disease will indicate to the patient the alarming state under which he is laboring; any transient indispositios he imputes to a different cause, never suspecting that the liver being affected is the latent source of these disturbed sensations; thus missed it is not into power to take the necessity prethus misled, it is not in his power to take the necessary precaution to guard against this insidious enemy to his repose. The symptoms of this disease are often slight and felt for a can iderable time, such as fulness after meals, accompanied by oppression, a feeling of vacuity at the pit of the stomach, the mind becomes irritable, memory defective, incapacity for mental exertion prevails, the appetite becomes variable, tongue furred, months claimly, taste viliated, slight noise, causes a start, sleep disturced with frightful dreams, occaraises a start, sleep disturced with frightful dreams, occaraises a start, sleep disturced with frightful dreams, occaraises as the sleep disturced with frightful dreams. From these views, then, there can be no doubt that the disorders of the liver are of the first importonce, and every effort used to remedy them should be conducted on rational

effort used to remedy them should be conducted on rational pulnciples, and by timely and efficient attention and the use of the most proper medicines, many very serious consequences may be prevent d, which too often are entailed on the constitution by processination.

As a remedy p-culiarly adapted to the cure of fiver affectors, Dr. Starkweather's Hepatic Elix r has proved to be the most potent and efficacious and every day's experience confirms more positively this assertion. It is candidly behaved that no preparation has every been before the public lieved that no preparation has ever been before the public trat has not with such unexampled appropation from dis-tinguished sources, disinterested judges, and grateful pa-tients as his medicine, and a greater amount of suffering has been mingated and more cores permanently effected by it than any other medicine exami.
